**Valeo – Paris – Novembre 2018** – Valeo, the Braking Systems Specialist since 1923 commits to innovate and deliver the best products and the best services to mechanics and all aftermarket key players. In light of this Valeo releases today a [best in class commercial vehicles brake pads fitting Video](#).

This 5mn walkthrough video presents in four steps the perfect dismounting and fitting operations of brake pads on a Heavy Duty application.

- Stage #1 Tooling and kit content checklist
- Stage #2 Removal of worn brake pads
- Stage #3 Fitting of new brake pads
- Stage #4 Refitting the wheel

Valeo has brought out this fitting movie to ensure top quality operations for mechanics and consequently increased safety for the drivers. Making sure this operation is fully mastered and most of all not delayed is absolutely key to reduce vehicle downtime. This is even more important when a whole fleet is concerned as the effect on the Total Cost of Ownership is immediate.
