

Valeo, your agricultural machinery partner
From OE leadership to aftermarket excellence

St Denis, October 13th 2015 – Valeo promotes its new aftermarket products and services at Agritechnica show from November 8th to November 14th 2015 in Hanover. Valeo demonstrates its genuine multi-specialist expertise in agricultural machinery and equipment. Visit us! HALL 17 on the stand n°D43.

This year Valeo comes up with a whole set of new products addressing a constantly growing part of the agricultural market needs.

A complete line up for a specific customers need,

New clutch range. Valeo comes up for the first time in Agritechnica show with over 20 new clutches applications for Case New Holland, Massey Ferguson, Mahindra & Mahindra, Tafe and Escort tractors. Those new kits and components will cover various needs of kits and components for several countries.

A dedicated wiper systems range. Valeo launches a full agricultural dedicated range for the first time in Agritechnica show. The 8 new part numbers will cover most of the agricultural applications and will be complemented by 10 part numbers in Wiper motors.

A bright lighting systems offer.

The new Cibie® LED Work Lamps range will be presented as well for the first time. The Valeo LED expertise will also be featured with the famous Cibié® Super Oscar LED lamps. The LED is differentiated by its ability to reduce drastically the energy consumption and by its resistance to vibration. In addition Valeo will also launch its 12V bulbs range.

Multi-product. Supported by a mastered in-house technological know-how, Valeo is one of the leaders in the Original Equipment for the entire global automotive industry. The company has one of the most comprehensive offerings for the aftermarket.

Multi-territory. Valeo Service benefits from a global structure enhancing its capacity to supply its customers even faster with its branded products in over 150 countries resulting in constantly expanding commercial foot print with operations in 5 continents.

Valeo is an automotive supplier, partner to all automakers worldwide. As a technology company, Valeo proposes innovative products and systems that contribute to the reduction of CO₂ emissions and to the development of intuitive driving. In 2014, the Group generated sales of 12.7 billion euros and invested over 10% of its original equipment sales in research and development. Valeo has 136 plants, 16 research centers, 34 development centers, 15 distribution platforms and employs 81,800 people in 29 countries worldwide.

Valeo is listed on Euronext Paris and is a member of the CAC 40 index.
