

## 78 new O.E. references of starters and alternators added to the Valeo Service range.

**Saint-Denis – France – O.E. leader and specialist in Electrical Systems, Valeo Service launches a large extension of 78 new O.E. references of starters and alternators.**

With an efficient Time-To-Market strategy, Valeo Service brings **the latest O.E. innovations and technologies** of starters and alternators to the independent aftermarket (IAM).

Thanks to Valeo's leading O.E. position in Electrical Systems, the new O.E. range covers a **large diversity of applications** for the latest vehicles on the road.

On top, Valeo is the **only I.A.M. supplier to propose both micro-hybrid technologies** to the market, with reinforced starters (ReStart) & integrated starter-alternator reversible system (i-StArs).

There are now 78 new O.E. references of new starters and alternators added in the Valeo Service range, which enlarge the catalogue to **755 part numbers**.

As an example, the Valeo micro-hybrid range is extended by 12 references of which:

- **8 ReStart** reinforced starters covering the latest RENAULT Megane IV (2014) TOYOTA Aygo (2014), MERCEDES Vito (2014) and VOLVO XC60 (2014) applications.
- **4 i-StArs** starter-alternator covering the latest PEUGEOT Partner (2015) and the new AUDI Q7 hybrid (2015) applications.

Then, Valeo brings the most recent generation of conventional machines with:

- 6 references of the **TS** (third generation) **ultra-compact starter motor** for TOYOTA Aygo (2014), FORD Focus III EcoBoost (2015) and FORD Transit (2015) applications.
- 10 references of **EG** (efficient generation) **efficiency alternators**, winner of the 2015 Automotive News PACE Award™, for AUDI A4, A5, Q7 (2015) and MERCEDES E-Class (2015) applications.
- 10 references of **CG** (fifth generation) **ultra-quiet alternators** (200A/250A) for the latest MERCEDES C-Class (2014), E-Class (2014) and Sprinter applications (2013) applications.

The Valeo new O.E. range extension keeps up with this pace as **18 new references will be launched during the first semester of 2017**, of which 2 micro-hybrid solutions.

Every new reference is produced in a Valeo O.E. site and undergoes the most **rigorous testings to ensure O.E. quality standards** are respected. It guarantees an **exact design, fitting accuracy** and provides **best-in-class reliability, durability and performance**.

**Trust the electrical systems specialist** for a complete range of new starters, alternators and micro-hybrid solutions to the IAM.

*Valeo is an automotive supplier, partner to all automakers worldwide. As a technology company, Valeo proposes innovative products and systems that contribute to the reduction of CO2 emissions and to the development of intuitive driving. In 2015, the Group generated sales of €14.5 billion and invested over 10% of its original equipment sales in research and development. Valeo has 148 plants, 19 research centers, 35 development centers and 15 distribution platforms, and employs 88,800 people in 32 countries worldwide.*
