

## Valeo delivers OE quality products to the aftermarket

**Saint-Denis - 17/06/2016 - According to its strategy to bring added value to the independent aftermarket, Valeo delivers faster and faster the best products possible with OE quality to the IAM each month.**

From April 15<sup>th</sup> to May 15<sup>th</sup>, Valeo has released 16 new part numbers in Lighting Systems. These new references feature headlamps applying for Ford C-Max and Volkswagen Transporter, but also rearlamps applying for the Toyota Avensis and Volkswagen Touran.

OE products are essential for the IAM market. Making available latest technologies is the warranty of having the same content than OE.

- IAM professional can propose since the very first year of the vehicle lifecycle an OE quality solution for the driver. This means increased customer satisfaction.
- For the garage, it means easy fitting and a perfect repair with time saving, ensuring the warranty follow-up.
- For the driver it means strictly equal safety, comfort and design than original product.

With these releases in line with Valeo's 2016 time to market plan, Valeo proves its willingness to respond to IAM needs and anticipate the future ones.

*Valeo is an automotive supplier, partner to all automakers worldwide. As a technology company, Valeo proposes innovative products and systems that contribute to the reduction of CO2 emissions and to the development of intuitive driving.
